

PNEUMATIC AND
HYDRAULIC
COURSE CONTENT

Duration: 5 Days

- 1) Basic Pneumatic Technology**
- 2) Basic Electro-Pneumatic Technology**
- 3) Basic Hydraulic Technology**
- 4) Basic Electro-Hydraulic**
- 5) Familiarization with FluidSIM**

Course Objectives

- 1) Introduces exercises of pneumatic and hydraulic technology with fully hands-on approach.
- 2) Introduces the symbol of components, functions, and design simple circuit.
- 3) Demonstrates the assembly, testing the functionality, modify, and troubleshooting the circuits on the work-bench.
